_____, Engineer.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source may be tributary and in conjunction with permit No. 6390, owing to the fact that portions of the same forty acre tracts are proposed to be irrigated under each permit. It is understood that, at the time of filing proofs of beneficial use under these permits, said proofs and cultural maps will show a segregation of the land irrigated from Road Canon and from Baxter Creek, so that certificates can be issued under each permit setting forth the land to which the waters of each source are appurtenant. A substantial headgate and weir must be installed and maintained at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that the applicant agrees to the terms herein contained.

Application of work shall be filed before July 9th, 1925.
Application of water to beneficial use shall be made on or before September 9th, 1925.
Proof of the application of water to beneficial use must be filed with State Engineer on or before October 9th, 1926.

Map filed 1/31/21

WITNESS MY HAND AND SEAL this 9th day

Cancelled Jan. 23, 1926 because of failure of applicant to comply with provisions of permit of January, 1923.
